

HEMSHIKA

Python Full Stack Developer

✉ hemshikagautamc@gmail.com ☎ +91 9411625697 📄 Portfolio 🌐 LinkedIn 🏠 Github

SUMMARY

Aspiring Python Full Stack Developer with a strong foundation in Data Structures & Algorithms, Machine Learning, and Web Development. Skilled in building scalable applications using Python, JavaScript, and modern tools. Passionate about solving real-world problems, developing AI-based systems, and creating impactful user-centric web applications.

PROFESSIONAL EXPERIENCE

Kodacy Virtual Internship

02/2026 – 03/2026

AI & Machine Learning

- Worked on AI-based solutions and real-world problem-solving
- Applied structured logic to improve system performance
- Collaborated in development and optimization of ML models

Deloitte Virtual Internship

Data Analytics

- Worked with Excel datasets and performed data cleaning, segregation, and transformation
- Created interactive dashboards and visualizations using Tableau from structured datasets
- Converted raw data into meaningful insights using graphs, charts, and reports
- Applied data interpretation and analytical thinking to solve case-based business problems
- Strengthened problem-solving, data analysis, and decision-making skills

EDUCATION

Bachelor of Technology in Computer Science (AI & ML)

2022 – 2026

Sunderdeep Engineering College, Dasna, Ghaziabad

CGPA: 7.91/10

Senior Secondary (Class XII)

2022

Government Girls Inter College, Vijaynagar

Secondary (Class X)

2020

Government Girls Inter College, Vijaynagar

ACADEMIC PROJECTS

AI-Based Plant Disease Detection System 📄

Tech: Python, TensorFlow, NumPy

- Developed a CNN-based image classification model to detect plant diseases
- Improved model accuracy through optimized preprocessing techniques
- Implemented structured data pipelines for efficient model performance

House Price Prediction System 📄

Tech: Python, Machine Learning

- Built regression models to predict house prices based on features
- Performed data preprocessing, cleaning, and exploratory data analysis
- Enhanced model performance using feature selection techniques

TECHNICAL SKILLS

Languages: — Python, Java, JavaScript

Frontend: — HTML, CSS, JavaScript

Backend: — Python (Flask), REST APIs

Database: — MySQL (basic), MongoDB

Tools: — VS Code, Git, GitHub, Postman, Figma, Canva, Jupyter Notebook, Vercel

Core Concepts: — Data Structures & Algorithms, OOPs, DBMS, OS

AI/ML: — TensorFlow, NumPy, NLP Basics

TRAINING & CERTIFICATIONS

Python 101 for Data Science

IBM SkillsBuild

Professional Skills Development Program

Sopra Steria

Mastering Python, Pandas, Numpy for Absolute Beginners

Udemy
